NEW YORK, July 18 .- A report was "to irculated in Wall street today to the effect that a large amount of gold, some had it \$1,000,000, would be ex- w porting firm. The house meant is W. H. Crossman & Bro., of Broad street, who, upon being interviewed, stated that they had not as yet fully determined whether or not they should asske a salpment of gold. It depended entirely upon the rates of exchange at which they could buy bills. If it was to their advantage to send the mass of the sale o

gold forward instead of buying ex-change, they would do so. One immdred thousand dollars in gold was placed on board the steamer Paruria today for shipment on Satur-day next by Nesslage, Colgate & Co.

Favorable crop reports induced the short interest in the Grangers to cover, and there were a few western purchasing orders on the board, which heiped to atrengthen the shares.

Lattle attention was paid to the gold export question, the general feeling seeming to be that there can be so scrious drain in gold in view of the near approach of the time when produce bills will appear in sufficient quantities to afford a basis for all the sterling exchange needed.
